STUDENT DIRECTORY INFORMATION – LEGISLATIVE UPDATE [Sec. 26.013]

River Road ISD provides to the parent of each student at the beginning of each school year or on enrollment of the student after the beginning of a school year in the student handbook the following information: (1) a written explanation of the provisions of the Family Educational Rights and Privacy Act of 1974 (20 U.S.C. Sec. 1232g), regarding the release of directory information about the student, and (2) written notice of the right of the parent to object to the release of directory information about the student under the Family Educational Rights and Privacy Act of 1974 (20 U.S.C. Sec. 1232g).

NOTICE

According to the Texas Public Information Act, certain information about district students is considered directory information and will be released to anyone who follows the procedures for requesting the information unless the parent or guardian objects to the release of the directory information about the student. If you do not want RRISD to disclose directory information from your child’s education records without your prior written consent, you must notify the district in writing by the end of the first 10 days of instruction.

Federal law requires that the District release to military recruiters and institutions of higher education, upon request, the name, address, and phone number of secondary school students enrolled in the District, unless the parent or the eligible student directs the District not to release information to these types of requestors without prior written consent.

River Road ISD has designated the following information as directory information:

- **Student’s name, address, telephone number**
- **Photograph, participation in officially recognized activities and sports, and weight and height of athletic teams**
- **Grade level, enrollment status, honors and awards received in school**

Who typically requests student information?

From time to time, the District receives requests from companies and organizations to purchase student lists, for example, businesses that supply items for graduation, photography studios, and class ring vendors.

The list on page 5 has been designated by River Road ISD as directory information for any purpose other than a school-sponsored or school-related purpose.

This means that RRISD must release the information listed on page 5 about your student to any person who follows the procedures for requesting it, unless you have told the District in writing not to do so.

Parent: Please circle one of the choices below for each statement:

I, parent of _____ (student's name) **(do give) (do not give)** the District permission to release information for district purposes, including positive publicity (yearbook, newsletters, district website, local newspaper, etc.)

I, parent of _____ (student's name) **(do give) (do not give)** the District permission to release information in response to requests *unrelated* to the school-sponsored purposes listed on page 1.

The River Road Independent School District offers access to an array of technology resources, including the Internet. This access offers vast, diverse, and unique resources and is provided to students and school personnel to promote educational excellence in the River Road district. The purpose of this document is to inform parents, guardians and students of the availability of technology resources as well as the rules governing its use and to obtain express parental or guardian permission for individual student to use the Internet while at school. It is a joint responsibility of school personnel and the parent or guardian of each student to educate the student about his or her responsibility when using the technology, especially the Internet. Parents are expected to discuss with their children the school and district technology rules as well as their own expectations for their student's Internet use.

The Internet

The Internet is an electronic highway connecting thousands of computers all over the world that gives students and teachers access to a variety of rich, educational resources. The World Wide Web includes some information specifically designed for children and youth, up-to-the-minute scientific information, Supreme Court documents, and other information that is traditionally difficult to obtain in the school environment. Information of the Web is presented richly in text, pictures, sound and video. Though students are provided a network log-in, the access described here does not provide students with their own RRISD Internet e-mail address or the ability to store World Wide Web pages on RRISD web servers. The educational value of appropriate information on the Internet is substantial. Because the Internet is composed of information provided by institutions and people all over the world, it does include material that is not of educational value in the context of the school setting. There is information that may be judged as inaccurate, abusive, profane, sexually oriented or illegal. RRISD does not condone or permit the use of this material and does use a commercial filtering tool to protect students from adult material on the Internet, to the extent possible. Parents and guardians must be aware that these technological tools are not completely fail-safe and while at school, direct supervision by school personnel of each student using a computer is desired, but not always possible. Students are expected to use the resources in a manner consistent with the rules below and will be held responsible for their intentional use. If a student accidentally accesses inappropriate material, she or he should back out of that information at once and notify the supervising adult.

Proper and Acceptable Use of All Technology Resources

The use of the school and district technology resources, including the Internet, must be used in support of education and academic research and consistent with the educational objectives of the River Road Independent School District.

Activities that are permitted and encouraged:

- school work
- original creation and presentation of academic work
- research on topics being studied in school
- research on opportunities outside of school related to community service, employment or further education

Activities that are not permitted:

- plagiarism or representing the work of others as one's own (any text quoted from another source or any idea that is another person's idea must be cited properly in the assignment)
- searching, viewing or retrieving materials from the Internet that are not related to school work, community service, employment or further education (thus, searching or viewing sexually explicit, profane, violence promoting or illegal materials is not permitted)
- intentional transmission of viruses or other destructive computer files
- copying, saving or redistributing copyrighted material (students should assume that all material is copyrighted unless explicitly noted)

- subscription to any online services or ordering of any goods or services
- online sharing of any student's name, home address, phone number or other personal information
- playing games and using interactive World Wide Web sites such as chats, instant messaging, or free email services unless specifically assigned by a teacher
- any activity that violates a school rule or a local, state or federal law.

If a student has any questions about whether a specific activity is permitted, he or she should ask a teacher or administrator.

Vandalism

Any intentional act by a student which damages technology equipment will be considered vandalism and subject to school rules and disciplinary procedures. Any intentional act that requires a person's time to repair hardware, replace software or perform corrective network operations is also considered vandalism.

Reliability

River Road Independent School District makes no warranties of any kind, whether expressed or implied, for the service it is providing. RRISD will not be responsible for any damages suffered by the user, this includes non-deliveries, mis-deliveries, or service interruptions caused by its own negligence or the errors or omissions of users. Use of any information obtained via the Internet is at the user's own risk. RRISD specifically denies any responsibility for the accuracy or quality of information obtained through the Internet.

Misuse

Violation of the acceptable use rules may result in suspension or revocation of a student's access to technology resources. Any action taken by a student that is in violation of a school rule will be subject to the usual disciplinary actions as shown in the RRISD's Student Code of Conduct handbook.
